

A HISTORY OF BEET SUGAR AGRICULTURE

**Remarks delivered by Dr. Larry Smith
Head, Northwest Experiment Station
University of Minnesota**

**American Society of Sugar Beet Technologists
March 3, 1997**

Dr. Smith gave an excellent overview of North American Beet Sugar Production and History.

A set of approximately 130 slides and a written narrative for each relating to the History of Sugar Beet Production in North American is being prepared. The set will concentrate on three areas:

- The History of Processing Facilities from 1830 - 1997
- The History of Seed Production
- The History of Modernization

Slide sets will available at the American Society of Sugar Beet Technologists Office and at the Northwest Experiment Station, University of Minnesota, Crookston, MN.
