

# Sensors in beet processing

Pfeifer & Langen  
IP

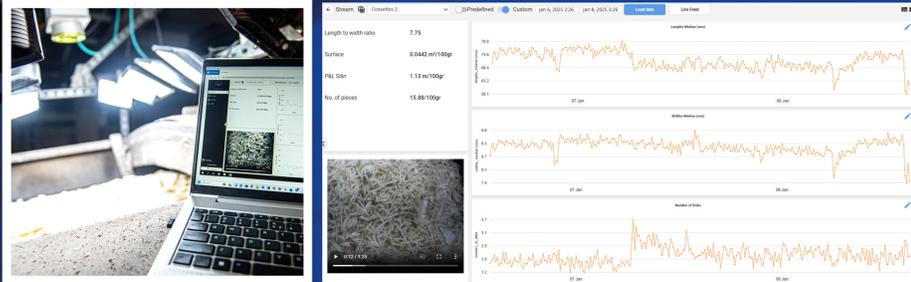

## IoT Infrastructure

1st step was to build an IoT infrastructure  
approved technology over 4 years operation  
11 installations in 4 countries

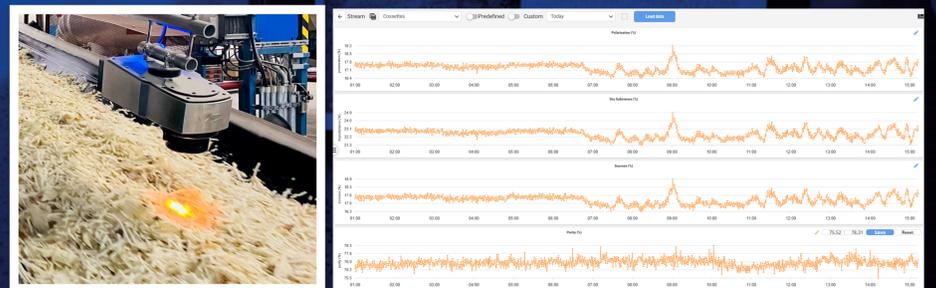

## „VSS Cossettes“ Sensor & NIRS for the extraction process

VSS Cossettes

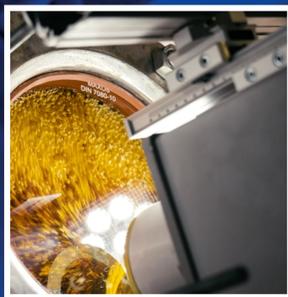

NIRS

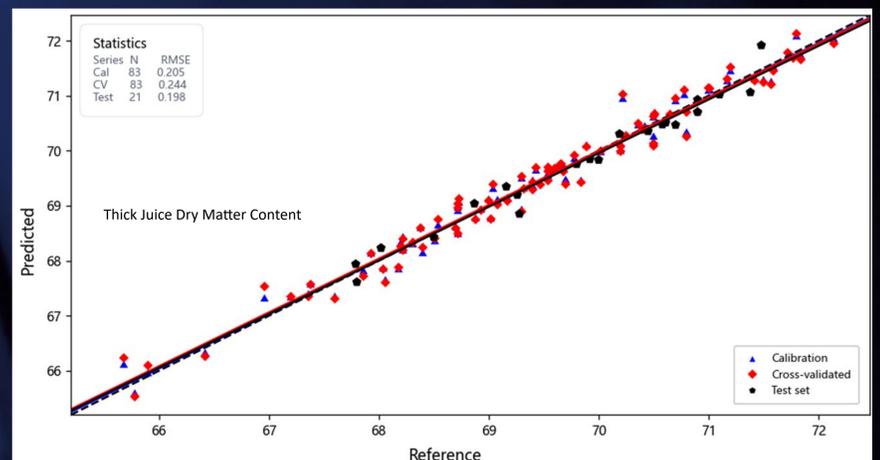

## „VSS Crystallisation“ Sensor & NIRS for the crystallisation process

VSS Crystallisation

NIRS Thick Juice

All solutions offered as a rent service!

Our sensors can be added modularly delivering real time data linked with our control applications also available modularly we cover the whole production range from beet to silo!
